Multi-select questions marked with ☐MS☐

Q1 • EASY — SINGLE SELECT**Which company created and released Hatsune Miku?**

- A. SEGA
- B. Internet Co., Ltd.
- C. Yamaha Music
- D. Crypton Future Media

Answer: D

Explanation: Crypton Future Media (Sapporo) developed and released Miku as part of their Character Vocal Series. SEGA publishes the Project DIVA games; Yamaha created the VOCALOID engine itself.

Q2 • EASY — SINGLE SELECT**What is Hatsune Miku primarily?**

- A. A rhythm-game mascot created by SEGA
- B. A human singer whose stage name is Miku
- C. A virtual singer and singing voicebank character
- D. A fictional idol who has never had a voicebank

Answer: C

Explanation: Miku is a voicebank for Yamaha's VOCALOID (and later NT) synthesis software, marketed as a 'virtual singer.' She is not a human performer, nor is she limited to games.

Q3 • EASY — SINGLE SELECT**When was the original Japanese Hatsune Miku voicebank released?**

- A. 2008
- B. 2007
- C. 2006
- D. 2010

Answer: B

Explanation: The Hatsune Miku VOCALOID2 voicebank launched on 31 August 2007.

Q4 • EASY — SINGLE SELECT**Who illustrated Miku's original character design?**

- A. iXima
- B. Mogumo
- C. redjuice
- D. KEI

Answer: D

Explanation: KEI designed the original box art and character illustration. iXima, Mogumo, and redjuice are well-known Vocaloid artists but did not create Miku's default design.

Q5 • EASY — SINGLE SELECT

Whose voice was used as the basis for Miku's original Japanese voicebank?

- A. Ayane Sakura
- B. Saki Fujita
- C. Kana Hanazawa
- D. Aoi Yūki

Answer: B

Explanation: Voice actress Saki Fujita provided the sampled phonemes. Crypton processed her recordings into the VOCALOID2 library.

Q6 • EASY — SINGLE SELECT

Which date is most strongly associated with Miku's original release anniversary?

- A. March 9
- B. May 5
- C. August 31
- D. September 1

Answer: C

Explanation: Miku's voicebank released on 31 August 2007. March 9 ('3/9' = 'Miku Day') is a fan celebration, not the official anniversary.

Q7 • EASY — SINGLE SELECT**Which colour is most iconic in Miku's character design?**

- A. Magenta
- B. Royal blue
- C. Turquoise / cyan
- D. Lime green

Answer: C

Explanation: Her signature colour is #39C5BB, a turquoise/cyan shade. This hex code even references '39.'

Q8 • EASY — SINGLE SELECT**Which pair are both Crypton Piapro Characters?**

- A. v flower and IA
- B. KAFU and GUMI
- C. Kagamine Rin and Megurine Luka
- D. GUMI and Kasane Teto

Answer: C

Explanation: Crypton's Piapro Character line includes Miku, Rin, Len, Luka, MEIKO, and KAITO. v flower (Gynoid), IA (1st Place), KAFU (CeVIO/MusicMaid), GUMI (Internet Co.), and Teto (TWINDRILL/AHS) are from other companies.

Q9 • EASY — SINGLE SELECT**What is the famous Japanese wordplay behind the number 39?**

- A. san-kyuu ≈ 'thank you'
- B. san-ku ≈ 'three-nine'
- C. mi-ku ≈ 'future song'
- D. miku ≈ 'three songs'

Answer: A

Explanation: San-kyuu (39) sounds like 'thank you' in Japanese. It is also read as mi-ku, which is why March 9 (3/9) is celebrated as 'Miku Day.'

Q10 • EASY — SINGLE SELECT

Which game series is most directly associated with Miku as its central rhythm-game character?

- A. Project SEKAI: Colorful Stage!
- B. BanG Dream!
- C. D4DJ
- D. Hatsune Miku: Project DIVA

Answer: D

Explanation: The Project DIVA series (SEGA, 2009–present) is built around Miku as the central icon. Project SEKAI features her alongside original human characters, but DIVA is the classic Miku-centric rhythm franchise.

Q11 • MEDIUM — SINGLE SELECT

In Vocaloid culture, what does 'producer' usually mean?

- A. A person who manufactures the voicebank hardware
- B. The manager of every official Miku concert
- C. An illustrator who only draws character art
- D. A creator who makes music using a voice-synthesis character

Answer: D

Explanation: A Vocaloid 'producer' is any musician/composer who writes, arranges, and tunes songs using Vocaloid/UTAU/SynthV voicebanks.

Q12 • MEDIUM — SINGLE SELECT**What is a singing voicebank?**

- A. A collection of official concert recordings
- B. A database containing every Vocaloid song
- C. Recorded vocal material and data used by synthesis software
- D. A library of character illustrations

Answer: C

Explanation: A voicebank is a library of recorded phonemes (and, in modern engines, AI-trained vocal data) that the synthesis engine stitches into singing.

Q13 • MEDIUM — SINGLE SELECT

Which producer created the original song 'World is Mine'?

- A. kz
- B. PinocchioP
- C. ryo (supercell)
- D. DECO*27

Answer: C

Explanation: ryo of supercell released 'World is Mine' in 2008. It is one of the most iconic early Miku songs and a staple of Miku concerts.

Q14 • MEDIUM — SINGLE SELECT**Which producer is associated with 'Tell Your World'?**

- A. ryo
- B. wowaka
- C. kz (livetune)
- D. Mitchie M

Answer: C

Explanation: kz (livetune) produced 'Tell Your World.' It was famously used in Google's Chrome commercials in Japan and is a flagship Miku song in Project SEKAI.

Q15 • MEDIUM — SINGLE SELECT**Which song is associated with DECO*27?**

- A. Ghost Rule
- B. Tell Your World
- C. Senbonzakura
- D. Melt

Answer: A

Explanation: 'Ghost Rule' (2016) is one of DECO*27's biggest hits. 'Melt' is by ryo, 'Tell Your World' by kz, and 'Senbonzakura' by Kourousa-P.

Q16 • MEDIUM — SINGLE SELECT**Which song is by wowaka?**

- A. Rolling Girl
- B. Miku
- C. 39Music!
- D. The Disappearance of Hatsune Miku

Answer: A

Explanation: wowaka (of Hitorie) created 'Rolling Girl' (2010). 'Miku' is by Anamanaguchi, '39Music!' by mikitoP, and 'The Disappearance of Hatsune Miku' by cosMo@BousouP.

Q17 • MEDIUM — SINGLE SELECT

Which song is especially associated with producer Mitchie M?

- A. Freely Tomorrow
- B. World is Mine
- C. Hibikase
- D. Ghost Rule

Answer: A

Explanation: 'FREELY TOMORROW' (2011) is Mitchie M's breakthrough hit, famous for its ultra-realistic Miku tuning. It held the record for fastest Vocaloid song to reach the Niconico Hall of Legend.

Q18 • MEDIUM — SINGLE SELECT**Which of these is a classic ryo/supercell Miku song?**

- A. Lagtrain
- B. Bug
- C. Mesmerizer
- D. Melt

Answer: D

Explanation: 'Melt' (2007) was ryo's debut Vocaloid work and helped launch the early Miku boom. 'Lagtrain' is by inabakumori, 'Bug' by Kairiki Bear, and 'Mesmerizer' by 32ki (Satsuki).

Q19 • MEDIUM — SINGLE SELECT**Which statement best describes Project SEKAI?**

- A. A Crypton-only music production program
- B. A replacement for the VOCALOID software itself
- C. A concert hologram system created by Yamaha
- D. A rhythm game featuring original characters alongside Virtual Singers such as Miku

Answer: D

Explanation: Project SEKAI: Colorful Stage! feat. Hatsune Miku (2020) is a mobile rhythm game by SEGA/COLORFUL PALETTE. It mixes original human units (Leo/need, MORE MORE JUMP!, etc.) with Virtual Singer versions of Miku, Rin, Len, Luka, MEIKO, and KAITO.

Q20 • MEDIUM — SINGLE SELECT

In Project SEKAI, which group is particularly associated with the character Hatsune Miku in its Virtual Singer material?

- A. Only Vivid BAD SQUAD
- B. All groups can feature Virtual Singer versions
- C. Only Wonderlands x Showtime
- D. Only Leo/need

Answer: B

Explanation: Every original unit in Project SEKAI has 'SEKAI' versions where Miku and other Virtual Singers appear with thematic outfits matching that unit's musical genre.

Q21 • MEDIUM — SINGLE SELECT**Which statement about Kasane Teto is accurate?**

- A. She was created by Crypton as Miku's official sister
- B. She was originally a Project DIVA-exclusive character
- C. She was first released as a Yamaha VOCALOID 2 voicebank
- D. She originated as an April Fools character and became a major UTAU / Synthesizer V singing character

Answer: D

Explanation: Teto began as a 2channel April Fools' prank in 2008, was released as a free UTAU voicebank weeks later, and later received an official Synthesizer V AI voicebank in 2023. She is not a Crypton product.

Q22 • MEDIUM — SINGLE SELECT

Which visual feature is most strongly associated with Kasane Teto?

- A. Red twin-drill hair
- B. Turquoise twin tails
- C. Blue side ponytail
- D. Pink bob hair

Answer: A

Explanation: Teto's signature look is red hair styled in twin drills (often mistaken for pigtails, which she supposedly hates). Turquoise twin tails belong to Miku.

Q23 • HARD — SINGLE SELECT

Which song became especially associated with the Miku/Teto internet crossover in the 2020s?

- A. World is Mine
- B. Just Be Friends
- C. Melt
- D. Mesmerizer

Answer: D

Explanation: 'Mesmerizer' (メスマライザー, 2024) by 32ki (Satsuki) features both Hatsune Miku and Kasane Teto. It became the fastest Vocaloid song to reach 100 million YouTube views and the most-viewed Vocaloid song overall.

Q24 • HARD — SINGLE SELECT**Who produced 'Mesmerizer'?**

- A. Surii
- B. 32ki (Satsuki)
- C. Kairiki Bear
- D. PinocchioP

Answer: B

Explanation: 32ki, read as Satsuki (さつき), is the producer. The music video was animated by channel, which sometimes causes confusion about authorship.

Q25 • HARD — SINGLE SELECT

Which of these songs is strongly associated with inabakumori?

- A. Hibikase
- B. Lagtrain
- C. Ghost Rule
- D. Melt

Answer: B

Explanation: 'Lagtrain' (ラグトレイン, 2020) is inabakumori's biggest hit, featuring Kaai Yuki. It went viral on TikTok and is one of the defining Vocaloid songs of the 2020s.

Q26 • HARD — SINGLE SELECT**Which song title is correctly matched to its producer?**

- A. Melt — DECO*27
- B. World is Mine — wowaka
- C. Ghost Rule — ryo
- D. The Disappearance of Hatsune Miku — cosMo@BousouP

Answer: D

Explanation: 'The Disappearance of Hatsune Miku' (消失のミク) is by cosMo@BousouP (2008). The other pairings are wrong: 'Melt' is ryo, 'World is Mine' is ryo, and 'Ghost Rule' is DECO*27.

Q27 • HARD — SINGLE SELECT**Which of these is NOT a Crypton Piapro Character?**

- A. MEIKO
- B. Kagamine Len
- C. GUMI
- D. KAITO

Answer: C

Explanation: GUMI (Megpoid) is developed by Internet Co., Ltd. MEIKO, Kagamine Len, and KAITO are all part of Crypton's Character Vocal / Piapro series.

Q28 • HARD — SINGLE SELECT**Which pair consists of a Miku song and its correct producer?**

- A. 39Music! — mikitoP
- B. Tell Your World — ryo
- C. Senbonzakura — wowaka
- D. Melt — DECO*27

Answer: A

Explanation: '39Music!' (2016) is by mikitoP. 'Tell Your World' is kz, 'Senbonzakura' is Kourousa-P, and 'Melt' is ryo.

Q29 • HARD — SINGLE SELECT**Which statement about Miku's live appearances is most accurate?**

- A. Every live Miku show uses a physical humanoid robot
- B. Miku concerts are exclusively pre-recorded videos with no stage performance
- C. She is commonly presented as a projected virtual performer with live musical accompaniment
- D. Miku can only appear in Project DIVA concerts

Answer: C

Explanation: Miku concerts (Magical Mirai, Miku Expo, etc.) use Pepper's ghost / transparent screen projection with a live band. She is not a robot, and her appearances span many events beyond Project DIVA.

Q30 • HARD — MS MULTI-SELECT

Which three are strongly associated with the broader modern Miku / Vocaloid song landscape? (Select all that apply)

- A. Lagtrain
- B. Bohemian Rhapsody
- C. Mesmerizer
- D. Ghost Rule

Answer: A, C, D

Explanation: 'Lagtrain' (2020), 'Mesmerizer' (2024), and 'Ghost Rule' (2016) span three different eras of Vocaloid. 'Bohemian Rhapsody' is by Queen and unrelated.

Q31 • EXPERT — MS MULTI-SELECT**Which three are Crypton Piapro Characters? (Select all that apply)**

- A. Hatsune Miku
- B. GUMI
- C. Kagamine Rin
- D. Megurine Luka

Answer: A, C, D

Explanation: Crypton's Piapro Characters are Miku, Rin, Len, Luka, MEIKO, and KAITO. GUMI is from Internet Co., Ltd.

Q32 • EXPERT — MS MULTI-SELECT**Which three statements about Kasane Teto are correct? (Select all that apply)**

- A. She has an UTAU voicebank
- B. She is one of Miku's official Crypton siblings
- C. She later received a Synthesizer V AI voice
- D. She began as an April Fools project

Answer: A, C, D

Explanation: Teto has UTAU banks (2008), a Synthesizer V AI voice (2023), and originated as an April Fools' joke. She is NOT a Crypton character and has no official sibling relationship to Miku.

Q33 • EXPERT — MS MULTI-SELECT

Which three songs have been featured in Project SEKAI's Virtual Singer / song ecosystem? (Select all that apply)

- A. Melt
- B. Bad Apple!!
- C. World is Mine
- D. 39Music!

Answer: A, C, D

Explanation: 'Melt,' 'World is Mine,' and '39Music!' are all pre-existing songs in Project SEKAI's Virtual Singer category. 'Bad Apple!!' is a Touhou Project song; while a SEKAI-arranged version exists, it is not part of the core Virtual Singer classic catalogue in the same context.

Q34 • EXPERT — MS MULTI-SELECT

Which three producers are strongly associated with Miku songs? (Select all that apply)

- A. Hikakin
- B. DECO*27
- C. kz
- D. ryo (supercell)

Answer: B, C, D

Explanation: DECO*27, kz, and ryo are legendary Miku producers. Hikakin is a Japanese YouTuber/beatboxer, not a Vocaloid producer.

Q35 • EXPERT — MS MULTI-SELECT**Which three clues point toward Miku's '39' association? (Select all that apply)**

- A. '39' is used prominently in Miku-related song titles
- B. 39 can be read as san-kyuu
- C. March 9 is celebrated by fans as Miku Day
- D. Miku's original voicebank was released in 1939

Answer: A, B, C

Explanation: Songs like '39' (sasakure.UK) and '39Music!' reference the number; san-kyuu = 'thank you'; and March 9 is Miku Day. Miku was released in 2007, not 1939.

Q36 • EXPERT — MS MULTI-SELECT**Which song / producer matches are correct? (Select all that apply)**

- A. Rolling Girl — Mitchie M
- B. Ghost Rule — DECO*27
- C. Melt — ryo
- D. Tell Your World — kz

Answer: B, C, D

Explanation: 'Rolling Girl' is by wowaka, not Mitchie M. The other three pairings are correct.

Q37 • FINAL ROUND — SINGLE SELECT

A player says: 'Teto is just another Crypton VOCALOID, like Miku.' What is the best correction?

- A. Teto and Miku were released together by Crypton in 2007
- B. Teto is simply Miku's alternate costume
- C. Teto has a different origin and voice-synthesis history; she began with UTAU and later expanded to other synthesis platforms
- D. Teto is a Project SEKAI-original character created for the game

Answer: C

Explanation: Teto was created by 2channel users as an April Fools' prank, released on UTAU, and later got Synthesizer V and VOICEPEAK versions via AH-Software/TWINDRILL. She is not Crypton-made, nor is she a Project SEKAI original.

Q38 • FINAL ROUND — SINGLE SELECT**Which chronology is the most accurate?**

- A. Project SEKAI launches → Miku debuts → Project DIVA launches → Teto is created
- B. Miku debuts in 2007 → Project DIVA era → Project SEKAI era → Teto's major modern crossover visibility
- C. Miku debuts → Teto is created → Project DIVA launches → Project SEKAI launches
- D. Teto is created → Miku debuts → Project SEKAI launches → Project DIVA launches

Answer: B

Explanation: Miku debuted 2007 → Project DIVA began 2009 → Teto was created 2008 as a prank/UTAU but her major modern crossover visibility exploded with Synthesizer V (2023) and 'Mesmerizer' (2024) → Project SEKAI launched 2020. Option B is the only sequence that correctly orders the eras of mainstream visibility.

Q39 • FINAL BOSS — SINGLE SELECT**Which statement best captures why Miku remains culturally distinctive?**

- A. She is a shared creative platform: different producers, games, fans, and performers can reinterpret the same virtual singer
- B. She is a fixed fictional character whose songs, design, and personality are controlled entirely by one studio
- C. Her popularity comes mainly from one game rather than music creators
- D. Her catalogue is limited to officially released songs written by Crypton

Answer: A

Explanation: Miku's enduring power comes from her status as an open creative platform. Thousands of independent producers, illustrators, dancers, and game developers have built a decentralized culture around her — something no single studio could control.

Host Notes & Interactive Upgrades

- **Audio ID**

Play 5–10 sec intros of Melt, Ghost Rule, Tell Your World, Rolling Girl, or Mesmerizer; ask for title or producer.

- **Image ID**

Show a cropped silhouette or outfit detail; ask whether it is Miku, Teto, Rin, Luka, MEIKO, or KAITO.

- **Project SEKAI Bridge**

Show a song jacket or unit logo; ask which SEKAI/unit it belongs to. Great for mixing classic and new fans.

- **Speed Round**

Q1–Q10 at 15 s timer; reveal leaderboard after Q10 to spark early competition.

- **Final Boss**

Make Q39 worth max points; consider revealing a Miku-themed prize or event announcement after the answer.

Summary of Fixes from Original

→ Q32 answer key typo (A,C,L)	: Corrected to A,C,D
→ Duplicate / fragmented answer keys	: Cleaned into single consistent format
→ Missing explanations	: Added concise, accurate explanations for every item
→ Inconsistent difficulty tagging	: Standardized to Easy / Medium / Hard / Expert / Final Round
→ Ambiguous Q38 chronology	: Clarified that Teto was created in 2008 but her modern crossover visibility peaked post-2023, making B the best answer
